

Minnesota Association of Cardiovascular and Pulmonary Rehabilitation

5th ANNUAL SPRING CONFERENCE

April 14, 2009

8:15 a.m. – 4:30 p.m.

Fairview Southdale Hospital
Edina, MN

This program is endorsed by AACVPR for
6.5 contact hours.

Overview

The MNACVPR Spring Program Planning Committee is pleased to present the 5th Annual Spring Conference. The topics are timely and focus on some aspect of delivering quality care to cardiac and pulmonary patients.

Objectives

At the completion of this program, the participant will be able to:

- Understand the proposed mechanism of why hypothermia reduces brain injury.
- Learn how to use the Bode Index in COPD patients and how it helps predict prognosis.
- Understand that not all wide complex tachycardias are malignant VT.
- Understand exercise induced arrhythmias and specific treatment options.
- Discuss how health care is delivered and reimbursed in the United States.
- Discuss the transition from FI's to MAC's.
- Describe the preliminary results of MNACVPR outcomes survey.
- Define disease management and how it can be applied to both cardiac and pulmonary rehabilitation.
- Describe how the application of disease management can impact the care of patients in cardiac and pulmonary rehabilitation.
- Identify clinical symptoms of alpha 1 antitrypsin deficiency.
- Describe disease process of alpha 1 antitrypsin deficiency and how it impacts COPD patients.

Educational Information

This program has been designed to meet the criteria of the Minnesota Board of Nursing and the American Association for Respiratory Care for continuing education for RN's, LPN's, and RT's. Verification of attendance will be given at the conclusion of the conference. Fifty minutes equals one contact hour.
