Clinical Response to PHQ-9 Scores

Introductory Objectives

At the completion of this program, participants will be able to:

- Illustrate the behavioral and psychological symptoms of dementia and how they can influence exercise delivery.
- Recognize the difference between Complex Sleep Apnea and Obstructive Sleep Apnea, and various types of sleep studies.
- Recognize what intellectual property is and how it is protected.
- Identify trends in tobacco use in Minnesota.
- Recognize innovative techniques to use in cardiac and pulmonary rehab.
- Explain the different styles of yoga, and benefits for cardiac and pulmonary patients.
- Recognize the evolving diagnoses of Asthma, COPD, and the varying phenotypes.
- Discuss safer opioid prescribing practices being implemented in the US.
- Identify the scope of mobile technologies.
- Recognize how to respond clinically to individual PHQ-9 scores.

Please stay for Matt Dunn at 7pm.

Matt Dunn is one of the busiest Magicians in the Midwest having performed nearly 5000 shows since the age of 6. You've seen him on magazine covers, billboards, and television His comedy magic show has been described as, "the best entertainment in town."

Course syllabus and presentation slides, that have been submitted, will be available at mnacvpr.org by April 19th.
